Google Chromebooks

1. Making a difference in and out of the classroom

• Students access all their work by simplifying organization and allowing them to focus more on learning.

• Easier to assign hands-on projects and encourage deeper skill development.

• Helps educators personalize learning, engage students, and improve overall performance.

2. Set up faster than a class sits down

• Quickly deploy, manage, and set policies for 100 or even 100,000 Chromebook devices.

• Automatic updates and built-in multilayer security

• Simple for students and teachers and integrated with G Suite for Education and Classroom.

3. Shapes and sizes for every learning need

• Versatile form factors support a wide variety of learning needs.

• Millions of web apps help students engage deeply and build skills of the future.

6. Chromebooks come with 24/7 support directly from Google, automatic updates and multiple layers of security so students and teachers can do more and parents can worry less. With Google Drive, all files are backed up online, safely and securely, even if the Chromebook accidentally takes a swim.

5. Perfect for sharing

Students will have a personal experience just by signing in, including access to individual classwork, apps, books and videos, both on and offline.

4. Easy to manage

• You can set up Chromebooks in minutes and centrally manage 10 or 10,000 devices across the school.

• No long load times, students just flip open a Chromebook and get started learning.

NIS is moving forward as a 21st century Google Chromebooks School.
