# Go GREEN

## What does it mean to "Go G.R.E.E.N."?

**G**enerate less waste

**R**ecycle everything that cannot be reused

**E**ducate the community on eco-friendly options

**E**valuate the environmental impact of actions

**N**ourish discussions and activities that integrate environmental education into existing curriculum

As part of our Go Green policy, the school is looking at alternative ways to share information with students and parents, such as email and PowerSchool for parent communication. The school will also become a Google Chrome school from 2018, where all students from grade 3 to grade 12 will use Chromebooks to access their learning resources.
